

## All-In-One Horizontal Retracting Display Set-Up

### Step 1

Place your retractor on your display surface vertically. (Fig. 1) Facing towards you carefully flip down each of the 4 base feet. Flip down so that they are perpendicular to the frame and will set flat on the table to hold up the display.

Fig. 1

### Step 2

Grasp with both hands tightly and press the Release Button (Fig. 2) to extend the retractor frame and expose your graphic.

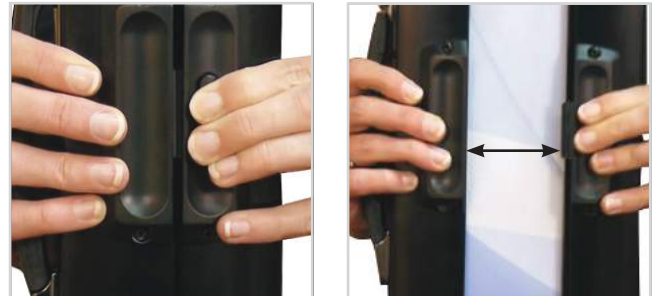

Fig. 2

### Step 3

Gently pull open the unit using both hands. Be careful not to open too quickly and be aware of where your image ends.

Back fully open

### Step 3

Place unit down upon table. Your display is now ready to go.

### TO FOLD UP BASE FEET: PLEASE TAKE NOTE

**Wrong** - do not directly try to flip legs upward

**Right** - do grip and squeeze at base of leg to turn upward or downward

Place all product parts into Carry Case and store in a cool dry location. Never store in heat or uncontrolled area such as the trunk of a car.

To clean banner, wipe with dry cloth.

Warranty Information: All products are designed to provide the user with a cost-effective and durable product. All-in-One hardware only warranty is a '1 year parts and labor' warranty which warrants product against defects in material and workmanship. It does not cover damage due to accidents, abuse, or normal wear and tear. Products found to be defective will be replaced or repaired at factory's discretion. Custom printed banner is covered for 90 days from order date and is warranted against defects in material and workmanship.
